

FACT SHEET

PrimeImage Media
862 N. Date Palm Ln.
Gilbert, AZ 85234
(480) 240-9262

Company Overview:

Arizona-based PrimeImage Media (www.PrimeImageMedia.com) is a videographer and photographer for the corporate marketplace, specializing in commercial, Web-marketing, testimonial, training and human resource videos. PrimeImage Media features an in-house production studio, two mobile production units and utilizes local professional talent. It is headquartered in Gilbert, has a production studio in Mesa and a sales office in Scottsdale.

Enhanced Lighting Compression Photography:

PrimeImage Media utilizes Enhanced Lighting Compression (ELC) photography, a breakthrough in the way properties and other scenes are represented in print and online. A specially configured camera uses multiple, simultaneous exposures and custom Photoshop software to produce images with unparalleled clarity, definition and sharpness, mimicking the way the human eye sees in real life.

Aerial Photography & Videography:

PrimeImage Media is among a handful of companies nationwide to offer aerial photography and videography in an unmanned aerial vehicle (UAV) called the DraganFlyer X6. The UAV is quiet, can move in all directions and capture images at lower altitudes that helicopters can't reach, offering unparalleled shots of buildings and landscapes. High-altitude aerial photography and videography from a helicopter is also available for images of large land parcels.

For more information, visit www.PrimeImageMedia.com or call (480) 240-9262.
